✧ BULB PLANTING—1907 ✧

© A Few Cultural Hints ©

The Soil and its Preparation.—Any good well-worked soil will grow Bulbs, provided it is well drained and broken up. Sandy loam suits them well, and even white sand, if well enriched, will grow them, but strong, stiff soils must be thoroughly broken up, drained if necessary, and lightened by the addition of sand or vegetable matter before they are suitable; and a green crop grown on the land after its preparation, and dug in, would greatly help it into a proper condition for Bulbs. When land has been deeply dug for the reception of Bulbs, it should be allowed to remain unplanted for a week or two to allow it to settle, otherwise the Bulbs may get too deep down in the soil.

How to Plant Bulbs.—Bulbs may be planted in groups, beds or rows, and the distance apart must be determined by the size of the plants when grown. The soil must never be very wet or sticky when planting is done, and unless it has settled after digging the soil should be firmed with pressure of the foot, so as to give the Bulbs a firm base. If the soil is inclined to be stiff, a little sand under the Bulbs greatly helps drainage and prevents rotting. For special directions for the cultivation of Hyacinths in water see page 4.

The Planting.—The size of the Bulb must be taken into consideration when planting, and if a covering of soil equal to the diameter measure of the Bulb is given, it will generally be sufficient. A Hyacinth Bulb, measuring 2 inches in diameter, requires a covering of 2 inches only, but for late plantings of Gladioli we recommend that the depth should be increased, so that the Bulbs may escape the surface heat of summer.

Manuring and Mulching.—Nearly all Flowering Bulbs dislike ammonia, and fresh stable manure or fowlyard manure must never be used. Well rotted stable manure or cow dung, which has been maturing, can be safely used, but it should be well dug in, and not allowed to come in touch with the Bulbs. In the case of Daffodils, the manure is intended to hold the moisture like a sponge, and is not applied as a fertilizer. A dressing of bone dust may also be given with advantage when planting any of the Bulbs. It should be well mixed with the soil.

A top dressing of old stable manure or decayed vegetable matter placed over the surface of the soil, to a depth of about two inches, is invaluable for Gladioli or Lilioms, etc., during the summer months, as it keeps the roots cool and retains the moisture in the soil. It is not necessary, however, for Spring flowering Bulbs; for these the soil should be kept open with a hoe or cultivator.

The Best Months to Plant.—All the Bulbs we list can be safely planted during March, April and May, with the following exceptions:—Liliums should be planted during May, June and July; Gladioli from April until October, and later if Bulbs are obtainable; and Montbretias, Tigridias and Vallotta Purpurea during June and July.

Always the Best!

CHOICE FLOWERING BULBS

THE LOVELY ANEMONE

Anemones are deserving of a place in every garden, and we cannot too highly recommend them. Their matchless variety of colour, and endless shades of crimson, scarlet, lilac, rose, blue, purple and white, together with the wonderful markings and blotches of colour, renders them very attractive. They are most beautiful as cut flowers, and will last for a week in water. The plants bloom for a long time, and by successional planting they can be had in bloom for three months. They prefer a fairly strong soil, well drained; the bulbs should be planted about six inches apart and covered about an inch.

Dutch Single. Mixed. All colours; a splendid assortment; very effective ..	1s doz.; 5s 100
Dutch Double. Mixed. Including many brilliant shades of colour ..	1s doz.; 5s 100
Dutch Single Scarlet. Very showy ..	1s doz.
Dutch Double Scarlet. Brilliant and very double ..	1s doz.
Hortensis Seedlings. Mixed. A beautiful dwarf-growing variety ..	1s doz.; 5s 100.
Blue Single. ..	1s doz.
The Bride. Single variety. Beautiful pure white; flowers very freely ..	1s doz.
Chrysanthemum-Flowered. Mixed. A very distinct class, with large handsome double flowers; the petals are regularly incurved ..	1s 6d doz.
St. Brigid. A beautiful strain of the Chrysanthemum-flowered Anemones, double and semi-double flowers; most brilliant colours ..	2s doz.; 14s 100
Fulgens (SCARLET WINDFLOWER). Dazzling scarlet; light elegant growth ..	2s 6d doz.
Fulgens fl. pl. Double variety of the handsome Scarlet Windflower ..	2s 6d doz.
Double Named and Distinct Varieties ..	2s doz.

AMARYLLIS

New Hybrid, very large flower, rich crimson colour, with pale lemon stripe through centre of each petal .. 1s 6d ea.; 15s doz.

A. Vittata (HIPPEASTRUM). Hybrids. These produce flower stems from 18 inches to two feet, surmounted by remarkably handsome large heads of trumpet-shaped flowers of easy culture; fine border plants .. 1s each

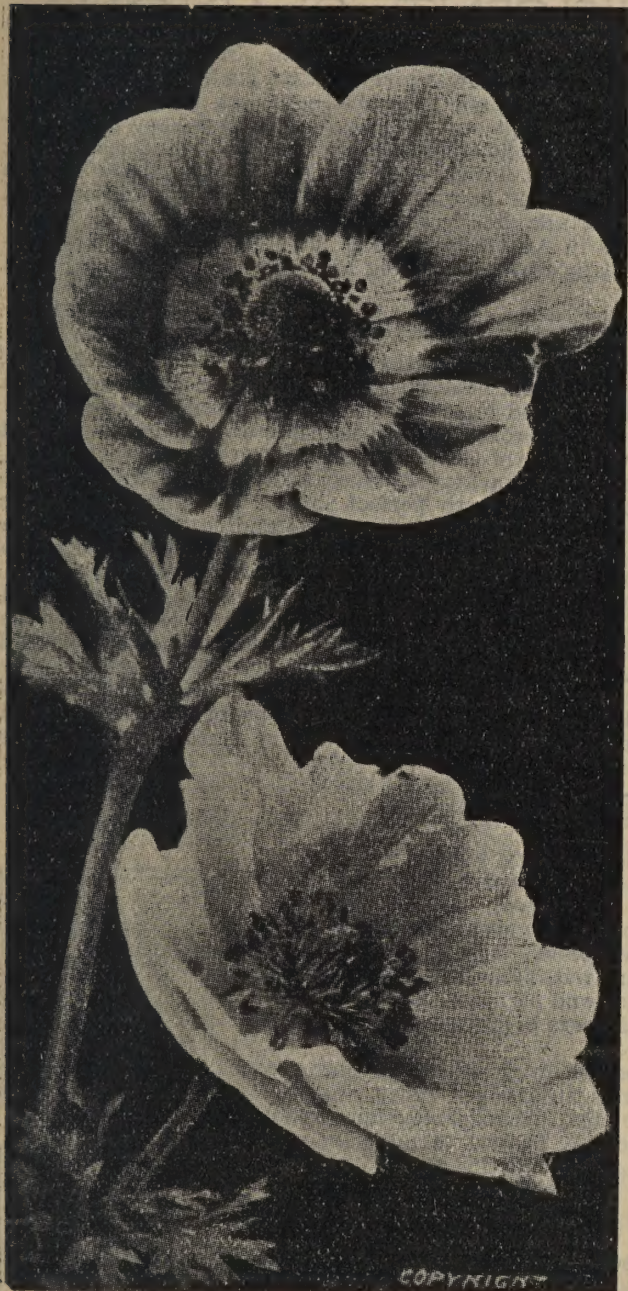

A. Kermesimum. Terra-cotta .. 1s each

A. Formosissima (SPREKELIA). The Jacobean Lily. Showy bulbous plants, with beautiful brilliant crimson flowers; a handsome border plant .. 1s each

A. Belladonna. This splendid species is very variable, in size and colour of flowers, producing variously shaded flowers, from almost white to red-dish or purplish hue; they thrive best in light soil .. 6d each

FREEZIA REFRACTA ALBA

SINGLE ANEMONE

BABIANA

TALL BLUE, and Shades.

DWARF—Beautiful Blue and Shades of same.

2d ea., 1s 6d doz.

FINEST MIXED, including some beautiful red shades.

Very showy plants, producing rich self-colours and very distinct hues in the same flower, with long wire-like foliage. To succeed with them they should be planted in a light sandy compost—beautifully sweet-scented.

BRUNSVIGIA

Multiflora .. 1s each

This magnificent border plant forms a handsome crown of flowers on a stem of about three feet, containing from eighteen to twenty-four separate blooms; the colours are pink and white, with a delightful perfume; will flower first season.

CROCUS

Best suited to the cool districts.

Blue .. 2s 6d doz. Yellow .. 2s doz. White .. 2s doz.

Striped .. 2s 6d doz. Mixed Colours .. 2s 6d per doz.

Old English favourite, but only suitable to the colder districts. If the situation and climate are suitable no special care is necessary; will thrive in poorest soils.

FREEZIA

A great favourite.

These flowers have a delicious perfume, and are of great value for cutting; each bulb bears more than one stem with eight or ten flowers. Most desirable pot plants, but they are perfectly hardy out of doors; should be planted four inches apart, and lightly covered; from five to eight inches high.

Refracta Alba. White; sweet-scented; very fine .. 6d doz.; 3s 100

Leichtlini. White, passing to primrose; yellow throat, pretty .. 1s doz.; 5s 100

Pink (Quite New). A beautiful shade of pale pink .. 1s each

HYBRID GLADIOLI

OUR MAGNIFICENT GLADIOLI

The Gladiolus is a charming flowering plant, which can be had in bloom for six months in the year, if frequent plantings are made, as the bulbs can be kept in a dry state for a long period, and can safely be kept out of the ground if necessary until they have a shoot of an inch in length. As cut flowers they are unrivalled, and last a long time in water, and if cut when only the first flowers are expanded, the remaining flowers will open in water. The first planting should be made in April, followed by others right on until October, or later if bulbs are available.

We hold the Premier Collections in Australia of these lovely plants, and are constantly improving it by importing many of the charming new varieties which are raised on the Continent from time to time.

CULTURE OF GLADIOLI

The culture of Gladioli is exceedingly simple, as they will grow in any average soil; but to grow them to perfection the soil should be of a sandy or loamy nature, and should be well worked or trenched to a depth of 18 inches. No new or green manure should be used in preparing the soil, but old well rotted stable manure, dug well in so that it does not touch any of the bulbs, will greatly assist in keeping the ground in a moist, open condition, and will promote a strong, hardy growth. A dressing of bone manure can, however, be incorporated with the soil with perfect safety. If planted in rows the bulbs should be 8 to 10 inches apart, and the rows 2 feet, and covered to a depth of 2 to 3 inches. When the shoots are about 12 inches high they should be tied up to keep them straight. The soil between the bulbs should be stirred up and kept clean. It will not be necessary to water them unless the season is a very dry one, if the ground has been well worked as we recommend, but if watering is resorted to let it be done thoroughly if less frequently. A top-dressing of manure over the surface of the soil is an excellent practice in summer. After the plants have finished blooming and show signs of ripening, by their yellow and brown leaves, the bulbs should be lifted and the shoots cut off close to the bulbs; and when the bulbs are properly dried the old sole or bulb should be removed and the new bulbs stored in a dry place until ready for replanting.

GLADIOLI GANDAVENSIS

1s each; 10s per doz.

- Angelique. White tinted flesh, blotch ivory white.
- Amalthee. Pure white, violet red blotch, tinted lilac.
- Amerique. Cinnabar red, striped red brown.
- Admiral Cervera. Slaty rose, striped slaty violet, white blotch.
- Amitie. Flethy rose, shaded straw colour, streaked purple.
- Andre Leroy. Very fine deep cherry red, flamed and striped with a rich darker shade; white blotch and stripe in centre of petal.
- Aurore de Feu. Handsome spike, flowers bright rose colour, passing to scarlet, golden centre.
- Assuerus. Tall spike, ashy rose colour, with white blotch.
- * Beaute de Juillet. Satiny rose, salmon tint, striped violet, long spikes.
- Baroness Burdett-Coutts. Delicate lilac, tinged rose; long spike.
- Beatrix. Pure white ground, delicately flushed carmine lilac.
- Berryer. Cherry red, edged lilac, white blotch.
- * Carmelite. Salmon rose, shaded with slate.
- * Carmen. Straw colour, streaked rose, citron rose at base of petals.
- Chloe. Bright cherry red; large white blotch.
- Clio. Soft rose, streaked cherry red.
- * Commandant Marchand. Compact spike, velvety dark ruby.
- * Cronstadt. White flowers, slightly flushed lilac.
- Carnation. Flethy white, tinged carmine, blotched purplish carmine.
- Demosthene. Bright rose, streaked pure white, blotched violet carmine.
- Duguesclin. Garnet red flowers, striped and blotched orange and slate, centre pure white.
- * Eugene Souchet. Bright rose, with white blotch.
- Eugene Scribe. Tender rose, blazed carmine red.
- * Fantome. Large pure white flowers, slightly streaked rosy lilac.
- * Fille de France. White, suffused rose throat amaranth.
- * Flamboyant. Fiery scarlet, very effective, lovely spike, large flowers.
- * Fra Diavola. Large bright orange rose, large pale yellow patch; fine flower.
- Formosa. Perfect spike, satiny rose, striped carmine, creamy white blotch.
- * Gazelle. Fresh rosy lilac, slightly flamed, deep red, good.
- * Grand Vainqueur. Tall spike, rose colour, flushed carmine.
- * Hesperide. White ground, blotched and flaked bright rosy salmon, grand spike.
- * Hercules. Velvety scarlet, streaked orange red, violet blotch.
- Hebe. Delicate rose, striped, edged and flaked carmine.
- * Helle. Lovely delicate mother-of-pearl rose, slightly glazed lilac.
- Klondyke. Fine lemon colour, edges flamed blood red.
- * La Parisienne. White ground, passing to yellow; flaked mauve.
- Lily. Large flowers, mottled with creamy white and bright soft rose.
- Lampadaire. Cherry red, suffused slaty brown, blotch white.
- La France. Pure white, slightly flamed carmine towards edges, amaranth blotch.
- La Perle. Splendid spike, large flowers, pure lilac, blotched violet carmine on lower petals.
- * Leviathan. Tall flower, enormous spike, delicate rose, striped carmine, and spotted on white ground.
- Mr. Jansen. Large rosy carmine flowers, edged and streaked violet red, cream blotch.
- Madame Auber. Pale rose lilac blotch, sometimes dappled light rose.
- * Mrs. P. Palmer. Rose, suffused carmine, cream blotch, edge cherry red; very large flowers.

The varieties marked with an asterisk cannot be supplied before August for September planting.

"The Daffodils, Anemones and Ranunculus I purchased from you last season were the admiration of all who saw them in bloom."
MRS. RIGBY,
Bathurst.—
11-2-06.

Choice Gladioli—continued

GLADIOLI GANDAVENSIS 1s each; 10s doz.—(continued)

- * **Madame Poret.** Coppery rose, slight golden blotch.
- * **MacKinley.** Striped white and red on fleshy ground.
- * **Marguerite Cadeau.** Almost pure white, lilac rose eye.
- * **Neron.** Beautiful dark red, suffused violet.
- * **Norma.** Pure white, sometimes suffused with lilac.
- * **Nestor.** Light yellow, striped red.
- * **Olympe.** Spike large and well set with full flowers of intense rose, white blotch.
- * **Osmanli.** Dark orange-coloured flowers, streaked and spotted white.
- * **Parure.** Immense flowers with white centre; rose, and edges streaked carmine.
- * **Phœbus.** Brilliant red, with large pure white and very conspicuous blotch.
- * **Pactole.** Beautiful yellow, slightly tinged with rose at the edges; blotch of a darker shade.
- * **Pepita.** Golden yellow, edges of the petal slightly striped carmine towards the end of flowering season.
- * **Rosalba.** White ground, blotched with carmine, fine spike.
- * **Rose des Haies.** Pretty spike of flesh-coloured flowers, centre white and yellow.
- * **Sceptre de Flore.** White throat, brightening to richest rose, spotted carmine.
- * **Soliel Couchant.** Handsome spike, large rose-coloured flowers, white blotch, bordered violet; fine.
- * **Sultana.** Satin rose flamed carmine, purple carmine blotch.
- * **Stromboli.** Large and beautiful flowers of the deepest scarlet, with pure white blotch.
- * **Thais.** Pale rose, edged bright carmine, ivory white blotch.
- * **Thermidor.** Salmon red, flushed and edged slaty grey.
- * **Therese de Vilmorin.** Flowers a creamy white, passing into pure white, few purplish rose stripes in centre.
- * **Tigridia.** Salmon yellow, large and open, flamed rosy carmine.
- * **Titania.** Beautiful tall spike, creamy salmon, flamed cherry.
- * **Tournefort.** Fine spike, flowers carmine red, streaked violet.

GLADIOLI GANDAVENSIS at 1s 6d each; 15s doz.

- * **Assuerus.** Tall plant, compact spike, lovely flowers; rose colour, white blotch.
- * **Belle Helene.** Lovely flowers, bright orangeroze, white band and blotch
- * **Gallieni.** Immense flowers, intense cinnabar red
- * **Granite.** Beautiful rose, striped and dotted deeper shade, large white blotch.
- * **Gargantua.** Large flowers, rosy carmine, striped violet red, very bright in centre.
- * **Le Cid.** Enormous flowers, intense scarlet red, striped and blotched white.
- * **Nelusko.** Lovely spike of most striking violet red.

GLADIOLI GANDAVENSIS at 2s 6d each; 27s doz.

- * **Andre Del Sarto.** Large, well-expanded flowers, fine cherry red, large creamy white blotch.
- * **Admiral Pottier.** Large spike, good flowers, dazzling scarlet red colour.
- * **Blanc Frise.** Fine creamy white, edges of petals goffered; distinct.
- * **Colonel Destenave.** Pale lilac, striped and blotched dark violet red, fine spikes.
- * **Dorothee.** Large flowers, fine lilac, flamed carmine, narrow red blotch.
- * **Fernando Cortez.** Dense spike, grand flowers of a pale yellow, almost a self; fine.
- * **Grand Conde.** Bright salmony rose, striped violet red, fine spike.
- * **Honore.** Long spike, large flowers; soft fleshy white, carmine stripes, lemon blotch.
- * **Ribera.** Large flowers, deep copper red, yellow blotch, striped purplish brown.

GLADIOLI LEMOINEI 1s each; 10s per doz.

- * **Armenien.** Pale lilac, violet blotch.
- * **Achanti.** Dark red-brown, very rich.
- * **Commandant Montell.** Slaty violet, narrow blotch.
- * **Domino Rose.** Pale cherry-red, blotch straw colour.
- * **Dr. James Clark.** Dark granite red, creamy blotch.
- * **Ethiopie.** Deep violetish red, dark velvety blotch.
- * **Mons. Leveque.** Splendid velvety crimson, lined golden yellow.
- * **Madrilene.** Bright salmon rose, carmine blotch on white ground.
- * **Mephistopheles.** Deep red, blotched black and sulphur; unique.
- * **Princess Altieri.** White, with crimson red blotch.
- * **Prof. Le Monnier.** Orange scarlet, large dark blotches, edged yellow.
- * **Tomboucton.** Deep purplish blue.
- * **Tricolore.** Creamy rose, suffused lilac, blotch dark violet.
- * **Voie Lactee.** White, edged lilac, dark violet blotches edged with blue.

GLADIOLI LEMOINEI at 1s 6d each; 15s doz.

- * **Eldorado.** Pure yellow, blotch dark.
- * **Lacordaire.** Fiery vermilion; early.
- * **Madame Desboides Volmaire.** Large salmony white flowers, large scarlet blotches and edged straw.
- * **Marc Marcheli.** Pale lilac, heavy blotch purple colour, ending yellow line
- * **Micromegas.** Large bluish violet flowers, inner petals blotched purple.
- * **Pierre Loti.** Bluish violet, suffused lilac, two petals entirely blue.
- * **Senateur Volland.** Large flowers, pure blue, dark blotch with a yellow stain; striped blue.

GLADIOLI LEMOINEI at 2s 6d each; 27s per doz.

- * **Baron Joseph Hulot.** Large flowers, rich violet, almost blue.
- * **Lady Howard of Walden.** Clear yellow, with brown blotch, edged sulphur yellow.
- * **Henry Leveque de Vilmorin.** Large well opened flower, salmon rose, red blotch on creamy ground.

GLADIOLI NANCEIANUS 1s each; 10s doz.

- * **A. R. Smith.** Fiery carmine red, pencilled with purple and straw colour.
- * **Georges Fricke.** Crimson-red, blotched brown, pencilled white.
- * **Gustave Grunerwald.** Vermilion red, fine.
- * **Pacha.** Orange red, striped red on sulphur ground.

GLADIOLI NANCEIANUS at 1s 6d each; 15s doz.

- * **Brahma.** Fine carmine red, large white blotch on lower divisions.
- * **Eugene Rambert.** Slaty-violet, marbled violet-red, blotch narrow.
- * **Ferdinand Kegeljan.** Orange red, flamed salmon rose, blotched and pencilled straw colour.
- * **G. A. Kuyk.** Carmine red, blotched and pencilled purple on white.

GLADIOLI NANCEIANUS at 2s 6d each; 27s doz.

- * **Colosse.** Large well-expanded flowers, salmony rose, suffused lilac.
- * **Edouard Andre.** Violet red, blotches pencilled brown on white ground.
- * **John Farquhar.** Carmine rose, blotch clear yellow, pencilled red.
- * **Surprise.** Bluish lilac, petals yellow, throat pencilled purplish red.

GLADIOLI COLVILLEI (True Miniature)

Charming Gladiolus for cut blooms, for table decoration; the graceful spikes are very light and beautiful, with delicate foliage.

- * **The Bride.** Pure white; a lovely variety.
- * **Rosy Gem.** White, with deep rosy markings.
- * **Rubra.** A beautiful flower, purplish red.

3d each;
2s 6d doz.

Our Gladioli Collections

GLADIOLI IN SPLENDID MIXTURE

This assortment includes many superb varieties and shades of colour, and every bulb will produce a flower worth looking at, and every collection, whether large or small, will include a great variety. All these bulbs are from our celebrated collection.

5s per doz.; 35s per 100.

GLADIOLI IN COLLECTIONS

ALL SHADES AND COLOURS.

Selected from varieties offered at 10s per doz.

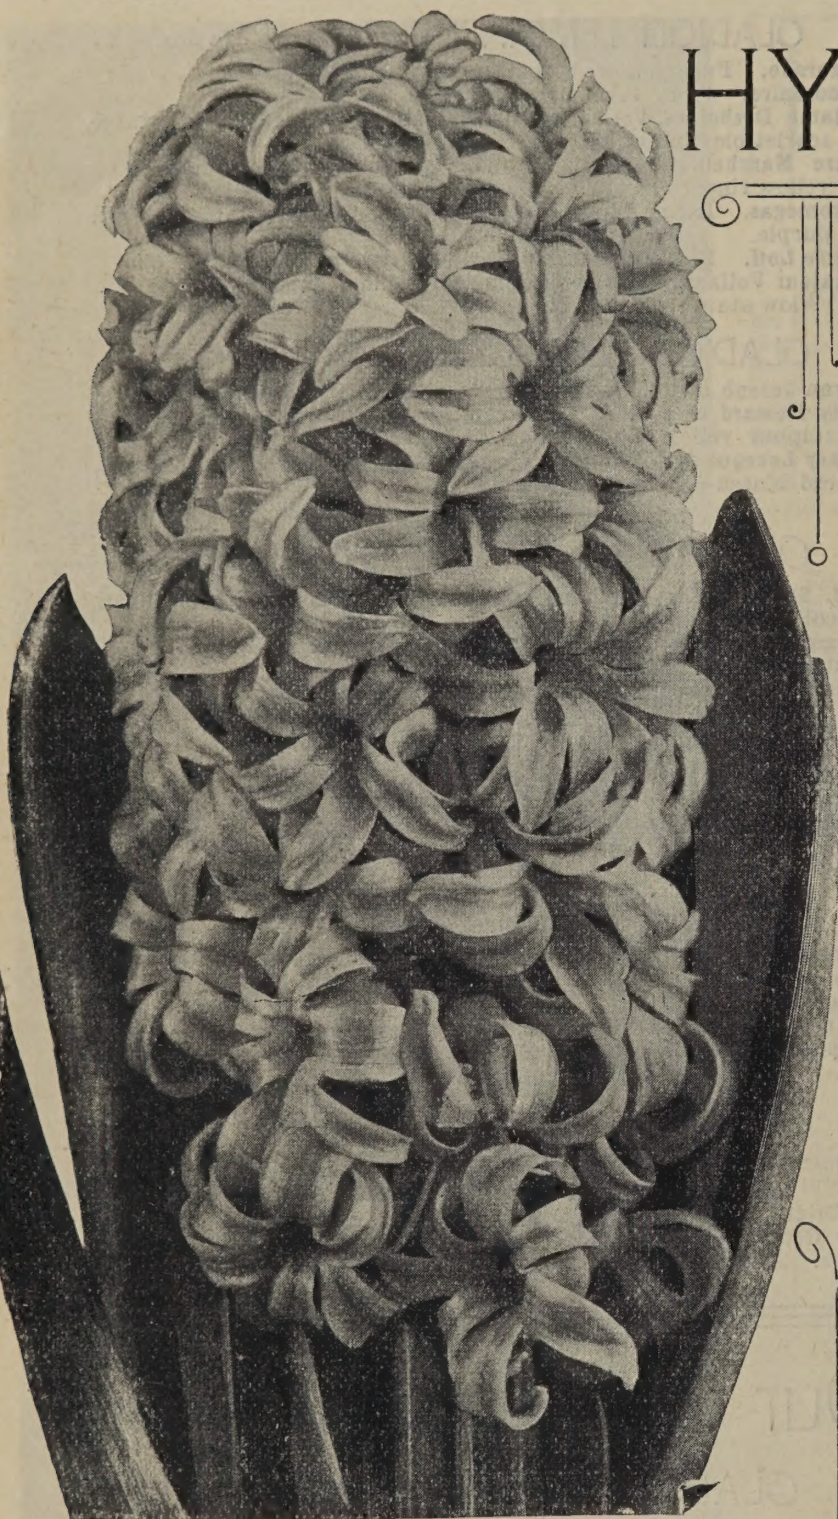

Our magnificent collection of Gladioli includes a superb variety of the various selections, which produce flowers of the most lovely colours and shades. Every dozen bulbs we send out will have a splendid variety of colour.

- 12 lovely named varieties from list on pages 2 and 3.. .. 10/-
- 25 lovely named varieties from list on pages 2 and 3.. .. 20/-
- Customers should allow us to substitute for any varieties sold out.
- 50 Bulbs, 25 named varieties. Our own selection 35/-

GROFF'S NEW HYBRIDS

- * **El Sol.** A beautiful new yellow. 3s 6d each.
- * **La Luna.** Pale yellow, passing to white, brown markings at throat. 3s 6d each.
- * **Blue Jay.** Pale blue, with white markings. 5s each.
- * **White, Yellow and Dark Hybrids, mixed.** 10s per doz.

HYACINTHS AND THEIR CULTURE

SINGLE HYACINTH

ROMAN HYACINTHS

3d each ; 2s 6d per doz.

EARLY WHITE.

Its pure white and deliciously scented flowers render this variety most attractive. It makes a very pretty show when grown in pots ; the spikes are small but very pretty—4 or 5 in a 6-inch pot.

BEDDING HYACINTHS

4s per doz. ; 25s per 100.

They are most suitable either for massing in beds or borders.

HYACINTHUS CANDICANS

6d each.

Distinct species of Hyacinth, producing a long spike, 4 feet high, covered with white bell-shaped flowers.

IN THE OPEN GARDEN. Hyacinths prefer a good sandy loam, enriched with old stable manure ; peaty soils also suit them if well drained, or peat mixed with loamy or sandy soil grow them splendidly ; do not succeed in dry soil. They should be planted in rows or in clumps 6 to 12 inches apart, and the crown of the bulb must be covered with at least an inch of soil. If the shoot when it comes through the ground shows an inclination to open and reveal the flower buds which it encloses, cover it up at once with an inverted flower pot, the object being to draw the flower stem from the bulb while it is enclosed in the leaves, and before the flower is exposed to the sun. If this is not done it sometimes happens that the flower begins to colour when only a portion of it has appeared, and the beauty of the spike is thus lost. Allow the flower pot to remain until the flower stem is well through and above ground, then remove it, and fine spikes will be secured. The bulbs must be lifted when they have done flowering and their foliage has died down.

HYACINTHS GROWN IN POTS are very beautiful. Plant in 6-inch pots, in rich, loamy, sandy or peaty soil, well mixed ; drain the pots well, place them in a shady or dark place until shoots appear above ground, and water sparingly, but when in full growth give a liberal allowance.

TO GROW HYACINTHS IN WATER. (Glasses for this purpose see below.) Place the Hyacinth in the glass sufficiently filled with water to allow the base of the bulb barely to touch it, and place them in a dark cupboard for about three weeks, until the roots are well started and the shoot is at least half an inch long, then remove them by degrees to a well lighted position in the room near the window, and as close to the glass as possible. Renew the water once a week, and keep it filled up to the base of bulb only.

Hyacinths grown in water are most interesting and make lovely plants, spikes often 9 inches long ; they are very easily grown and do well in this climate.

SINGLE HYACINTHS

8d each ; 7s per doz.

RED, and Shades of Red.

Betsy. Red ; a grand spike.
Cleopatra. Large spike, bells salmon bluish, good.
Comet. Pale red, strong grower, fine spike.
Eldorado. Deep crimson.
Eliza. Dark red, good form, large spike.
Grand Blanche Imperial. Rich deep bluish ; large.
L'ami du Cœur. Beautiful bright rosy red.
Maria Cornelia. Light rose, early.
Monsieur de Faesch. Pink, fine.
Robert Steiger. Bright crimson, large truss.

WHITE, and Shades of White.

Baroness von Tuyl. Large handsome truss, fine.
Grand Vainqueur. Pure white, good truss.
L'Innocence. Pure white ; good.
Madame de Stael. Pure white, fine truss.

BLUE, and Shades of Blue.

Cœur Blanc. Dark purplish blue, large white eye.
Emilius. Light clear blue.
Laurence Coster. Deep purple.
Mimosa. Dark purple, very distinct, almost black.

YELLOW, and Shades of Yellow.

Fleur d'or. Fine, pale shade.
Ida. Bright clear yellow.
La Citronniere. Citron yellow.
La Pluie d'or. Pale yellow.
Seraphine. Pure yellow.

DOUBLE HYACINTHS

8d each ; 7s per doz.

RED, and Shades of Red.

Josephine. Pink.
Rouge Eclatant. Fine deep red.
Don Gratuit. Beautiful rich bluish
Noble par Merite. Rose, striped carmine, large bells.
Princess Royal. Pink, dark centre.

WHITE, and Shades of White.

A la Mode. Pretty bluish white.
Bouquet Royal. Pure white.
Gloria Forum. Pure white, yellow centre.
Lady Wellington. Blush white.

BLUE, and Shades of Blue.

Bouquet Pourpre. Dark blue, very fine.
König von Württemberg. Deep strong blue ; good.
La Belle Blanchiseuse. Rich blue.
Lord Noel. Blue, beautiful flower.
Prince Albert. Black purple, fine spike.

YELLOW, and Shades of Yellow.

Cræsus. Light citron.
Sovereign. Fine, good spike.
Sunflower. Salmon yellow.

HYACINTH GLASSES

Supplied for the purpose of growing and flowering Hyacinth Bulbs in water as a drawing-room ornament.

Various Colours, 7d ea. ; 6s doz.

Brass Hyacinth Supports
4d each

GERMAN
IRIS

IRIS

Our
Large
List of
Seeds
and
Plants
will be
issued
in
March

Nothing can exceed the beauty of this charming family of plants, remarkable alike for their curiously constructed and quaintly marked flowers, and for the peculiar manner in which the colours are blended; they are easily cultivated. Plant from March to May.

GERMAN IRIS 6s per doz.

An exceedingly large handsome variety. They succeed best in moist situations, as it must have a free supply of water during the blooming season.

SPANISH IRIS (Orchid Iris)

We have grown these extensively during the past season, and can most strongly recommend them as decorative plants. The flowers are produced on slender stems about a foot high, bearing two or three flowers each. These are most fantastically shaped and of beautiful colours—yellow, bronze and blue, with beautiful shades and markings. A single bulb will sometimes throw three or four spikes, and these when cut will last a long time in water, as the buds continue to open. As a dinner-table decoration they cannot be excelled. They will thrive in the open or partially shaded places, and should be planted in clumps. Any average soil will grow them, provided it is well drained.

A Collection of 12 Distinct Named Varieties - 3/6

Splendid Mixture, all shades .. 3s per doz.

IRIS LORTETI

One of the most beautiful of all Irises. See Back Cover.

We deliver

Bulbs Post or
Carriage Free at
the Prices named

Making a Splendid Show!

*"The Bulbs purchased from
you are making a splendid
show."*—MRS. J. J. E. STERL,
Walcha.—12-9-06.

IRIS KAEMPFERI (Japanese Flag Iris)

1s each; 9s per doz.

For size and richness of colour the following varieties of the Japanese Iris are unequalled, with an indescribable mass of colouring, flowers often measuring 6 to 8 inches across. They grow to a height of 2 feet, and must have a moist situation; with light rich soil, swampy land will grow them well.

Large Maroon.

Dark Blue.

Large Blue and variegated.

Light Maroon.

Light Blue.

Double Violet.

Brilliant Purple, yellow blotches.

Tyrian Blue, feathered white.

Navy Blue, yellow blotches.

White, primrose blotches.

Sky Blue, primrose blotches.

Lavender and White, yellow blotches.

IRIS IBERICA

1s each.

A beautiful variety of a pale lilac colour; the falling petals are closely veined.

IRIS PAVONIA (Peacock Iris)

3d each; 2s 6d doz.

A beautiful variety, supporting on slender stems lilac-coloured flowers with an intense blue spot on each petal.

MUSCARIA (Grape Hyacinth)

3d each; 2s doz.

Pretty bluish violet and white flowering bulbous plants, dwarf and free flowering.

NERINE

Very handsome flowers.

Sarniensis (GUERNSEY LILY). Belongs to the Amaryllis tribe; thrives well in the open ground; flowers a pale salmon colour. 1s ea.
Japonica (THE BEAUTIFUL JAPANESE SPIDER PLANT). 6d each; 4s per doz.

In September, after the leaves have withered, it sends up flower stalks 9 to 12 inches high, which are crowned with umbels of bright red flowers with long curved stamens; charming.

SPANISH IRIS

SHEAF OF LILIES

LACHENALIA

- Aurea. Golden 6d each
 Quadricolour 6d each
 Very free flowering; flowers yellow margined with green, red and orange; spotted leaves.

IXIA

A charming family of hardy flowering plants; flowers are scarlet, lavender, white or green, on light graceful stems, produced in great profusion. Any light soil will grow them; they should be planted in clumps, or in rows four inches apart.

- Viridiflora. Green flowered Ixia, one of the few flowers of this colour; a charming variety. Stock limited .. 2s per doz.
 Scarlet. Most brilliant colour; charming flower
 Yellow. Beautiful shade of yellow, dark throat } 1s 6d per doz.
 White. Fine pure white } 8s 6d per 100.
 Mixed. All colours } 75s per 1000.
 Named varieties. A splendid assortment 3s 6d per doz.

JONQUIL

Much admired for their beauty and delicious fragrance; they bloom very early, and last a long time; flowers much smaller than the Daffodils.

- Single. Yellow 1s 6d per doz.
 Double. Yellow 2s 6d per doz.
 Campenelli 2s per doz.

"The Bulbs, etc., arrived in good order, as they were so carefully packed."—Miss MALEY, Gollan.—6-4-06.

LILIES

The beauty of form, the chaste delicacy of the white blooming varieties *Harrisi*, *Candidum* and *Longiflorum*, and the magnificent colours of *Auratum* and *Lancifolium*, render these of the greatest importance as summer blooming plants. They will grow in any good garden soil, provided it is well broken up and drained, but they delight in light, fibrous, peaty soil when it is obtainable. By planting the proper varieties a display can be obtained all through the summer.

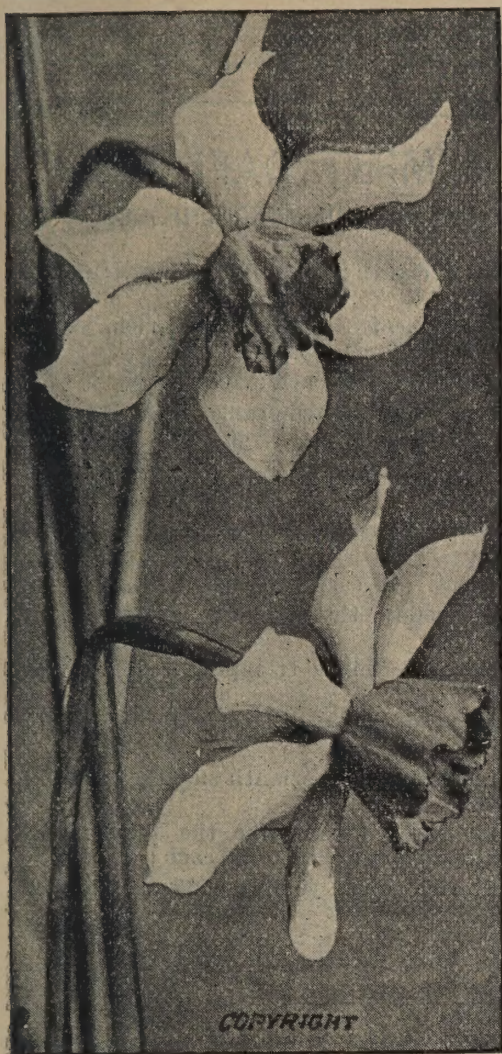

LILIUMS

- Harrisi* (TRUE EASTER LILY). A most lovely pure white lily, with long graceful tube-shaped flowers produced in profusion on the crest of an upright stem. Without doubt the finest Trumpet Lily 1s each
Longiflorum. Pure white; dwarf; long tube .. 6d each
Candidum (SINGLE WHITE LILY). Very fragrant .. 9d each
Lancifolium Album. Pure white, recurved .. 9d each
Lancifolium Roseum. White, spotted rose, flowers recurved .. 9d each
Lancifolium Rubrum. White, spotted red, flowers recurved .. 9d each
Pardalinum. Scarlet, shading to yellow, spotted purple brown; very handsome .. 9d each
Auratum (GOLDEN RAYED LILY OF JAPAN). Flowers from eight to ten inches across; ivory white, thickly studded with crimson spots, and a bright golden band through centre of petal .. 1s 6d each
 Extra large bulbs, specially selected .. 2s 6d each
Tigrinum (TIGER LILY). Orange, spotted black .. 6d each
Tigrinum Flore Pleno (DOUBLE TIGER LILY) .. 9d each

LILIUM HARRISI

CYNOSURE

CHALICE CUPPED DAFFODIL

DAFFODILS or Narcissi

Although in Australia there is no such long winter rest for bulbous plants as in England and the Continent, nevertheless these charming plants, which mark the advent of spring in the old country, have their short rest here, but as soon as the approach of spring is heralded by the sunshine and warm days the Daffodil wakes into new life and soon puts forth its bright flowers in all its loveliness to deck our gardens and our homes, and mark the springtime with their bright beauty just as effectively in Australia as they do in England.

There is no more easily cultivated flowering bulb, for although the Daffodil prefers a strong loam, it will grow and flower freely in any average garden soil. The land should be well worked and deeply dug, but if it is very poor, well-rotted horse manure should be dug in to a depth of 8 to 12 inches so that it does not touch the bulbs. Bone manure can be incorporated with the soil to advantage. We offer strong bulbs which will flower the first season. These should be planted 6 inches apart, and the crown of the bulb should not be covered more than 2 inches. The flowers keep a long time when cut, and retain their brilliant colours in water for several days.

Daffodils can also be grown in water with much success, and their cultivation in this way is most interesting. Half fill a china or glass bowl with pebbles, or small pieces of sandstone, so as to keep the bulbs in position, then fill in with water to reach just above base of bulbs, and keep filled up to that level when water goes down by evaporation; about 6 bulbs in a bowl will make a good show. Sir Watkin, Emperor and Empress are very suitable for the purpose.

INCOMPARABILIS or CHALICE CUPPED DAFFODILS

- Autocrat. Very handsome flower; full self yellow. 3d each; 2s doz.
 Beauty. Red cup, 3d each; 2s 6d doz.; 15s 100.
 Commander. Pale sulphur perianth, large yellow cup, stained orange scarlet. 1s each; 10s doz.

- Her Majesty.** A fine, bold, self-yellow flower. 1s each; 10s doz.
- James Bateman.** White perianth; cup yellow, tinted orange, late. 1s each.
- Major.** Rich yellow; twisted perianth; hardy; late. 2d each; 1s 6d doz.
- M. J. Berkley.** Rich full yellow; trumpet much expanded and reflexed at edge. 6d each; 5s doz.
- Maximus.** Rich golden yellow; twisted perianth; large, late. 3d each; 2s 6d doz.; 18s 100.
- Maximus, Early.** Finest yellow trumpet. 6d each; 5s doz.
- Obvallaris (TENBY DAFFODIL).** Rich yellow throughout; perfect form; most beautiful. 2d each; 1s 6d doz.
- P. R. Barr.** Primrose perianth; rich full yellow trumpet, free bloomer. 6d each; 5s doz.
- Santa Maria.** Remarkably handsome and distinct; perianth gracefully twisted. 1s each.
- Sunshine.** Deep yellow trumpet, large and full; perianth slightly twisted; a fine flower. 6d each; 5s doz.
- Bulbocodium (HOOP PETTICOAT NARCISSUS).** Colour like the Buttercup; small flowers; large corolla, with small outer petals. 2d each; 1s 6d doz.
- Golden Plover.** Trumpet and perianth rich golden yellow. 6d each; 5s doz.

WHITE WINGED or BICOLOUR TRUMPET DAFFODILS

- Grandis.** Large and finely imbricated; pure white perianth, large full yellow trumpet. 6d each; 5s doz.
- Empress.** White perianth, great substance; rich yellow trumpet. 3d each; 2s 6d doz.; 18s 100; £6 1000.
- Horsfieldii.** White perianth; rich yellow trumpet; large. 6d each; 5s doz.
- Mrs. Camm.** Perianth white; trumpet sulphur white; a lovely flower. 9d each; 8s doz.
- Michael Foster.** Sulphur white perianth; yellow trumpet. 1s each.
- Princeps.** Pale lemon perianth, often lighter than the trumpet. 2d each; 1s 6d doz.; 9s 100; 60s 1000.
- Portia.** Perianth soft primrose, trumpet yellow; very early. 3d each; 2s 6d doz.
- Dean Herbert.** Perianth primrose, changing to sulphur; large rich yellow trumpet. 9d each; 8s doz.

WHITE and SULPHUR COLOURED TRUMPET DAFFODILS

- Albicans.** White perianth, trumpet primrose, passing to white; elegantly recurved. 3d each; 2s 6d doz.
- Cernuus.** Perianth and trumpet silvery white. 6d each; 5s doz.
- Helen Falconer.** White trumpet, free flowering. 9d each; 8s doz.
- J. B. M. Camm.** Perianth white; rich cream trumpet, fine form. 9d each; 8s doz.
- Moschatus (WHITE SPANISH DAFFODIL).** Charming dwarf variety. 6d each; 5s doz.
- Snow King.** Large flower, elegant form, perianth and trumpet snowy white. 1s 6d each; 15s doz.
- William Goldring.** Large snowy white tapering perianth, gracefully drooping over primrose trumpet. 6d each; 5s doz.

A LARGER ORDER FOR NEXT SEASON!

"Of the Bedding Hyacinths I cannot speak highly enough. I had splendid colours, blue, pink (two shades), and white, and some of the heads were as thick as my wrist. I intend to order a much larger number for next season from you, finding they do so well here. My gardener told me that the dozen he put in were as good as some named varieties."—MRS. ORR, Taringa, Brisbane, Q.—20-9-06.

SULPHUR PHOENIX DAFFODIL

POETICUS

- Alba Plena Odorata.** Double white; Gardenia flowered; useful for cutting. 3d each; 2s 6d per doz.
- Grandiflorus.** Perianth pure white; cup diffused crimson. 6d each; 5s doz.
- Ornatus (PHEASANT'S EYE).** Single; pure white imbricated perianth; flat cup; edged scarlet. 2d each; 1s 6d doz.; 9s 100; 60s 1000.
- Poetarum.** Perianth pure white; cup orange scarlet. 6d each; 5s doz.

POLYANTHUS or Bunch-Flowered NARCISSUS

- Bathurst.** Pale lemon; good; large flower, very early. 2d each; 1s 6d doz.
- Double Roman.** White, orange nectary, early. 2d each; 1s 6d doz.
- Duchess of Albany.** Creamy white, orange cup. 2d each; 1s 6d doz.
- Dubius Grandiflorus.** Cambric white; very large. 2d each; 1s 6d doz.
- Grand Monarque.** White perianth, yellow cup; immense truss; the finest of all; late. 2d each; 1s 6d doz.
- Grand Primo.** White perianth, yellow cup. 2d each; 1s 6d doz.
- Grand Soleil d'Or.** Deep rich yellow, with orange cup. 2d each; 1s 6d doz.
- Paper White.** Charming pure white; exquisite perfume; early. 2d each; 1s doz.
- White Pearl.** Pure white; very fine flower, late. 2d each; 1s 6d doz.

POLYANTHUS NARCISSUS—GRAND MONARQUE

TUBEROSE

SNOWFLAKE (*Leucojum Aestivum*)

Snowflake. A beautiful hardy bulb of the Snowdrop type, which it strongly resembles; the petals are prettily tipped with green; it does well in almost any soil or situation; height when in flower about 12 inches 6d doz.; 3s 6d 100

TUBEROSE

One of the most beautiful summer flowering bulbs in cultivation; the blooms are of the purest white and of the most exquisite fragrance; they are admirably adapted for bouquet making, and are easy to cultivate.

Double Dwarf "The Pearl" 6d small clumps; 1s large clumps
Double 6d small clumps; 1s large clumps
Single 6d small clumps; 1s large clumps

GALANTHUS NIVALIS (The true English Snowdrop)

This is the true Snowdrop known so well in England, but seldom offered for sale here. They flower straight from the bulb on single stems, and are much more dwarf than the well-known "Snowflake," generally called Snowdrop in Australia. They require a cool, partly shaded situation, and give a pretty effect dibbled into grass lawns or banks. Our stock is limited, and orders should be sent early to secure them. 3s per doz.

OUR LARGE GENERAL CATALOGUE
of SEEDS, PLANTS, &c.
will be issued in March. - Send for a copy

RANUNCULUS

A LOVELY BULBOUS FLOWER

We very strongly recommend the beautiful Ranunculus as one of the most charming of our spring flowering plants; the flowers are very double, and sometimes four inches across; a bed of them in full bloom is a glowing mass of colour. They prefer rich loamy soil, but will grow in any average land if well enriched. Plant at least six inches apart, and the ground made firm. PLANT CLAWS DOWNWARDS.

Turban Scarlet 1s per doz.; 5s per 100
Turban Yellow 1s per doz.; 5s per 100
Turban Grandiflora. Fine crimson & yellow 1s per doz.; 5s per 100
Turban White 1s 6d per doz.; 7s per 100
Turban Black 1s per doz.; 5s per 100
Turban d'Or. Scarlet and gold .. 1s per doz.; 5s per 100
Carmine. A beautiful shade .. 1s per doz.; 5s per 100
Turban Mixed 1s per doz.; 5s per 100
Prince de Galitzin. Superb spotted; very distinct, 1s per doz.; 5s per 100
Double French. Splendid colours .. 1s per doz.; 4s per 100
Persian Mixed. Very fine .. 1s 6d per doz.; 7s 6d per 100
Persian Finest Named Varieties. In distinct colours .. 2s per doz.

RANUNCULUS ASIATICUS COLONIAL-GROWN BULBS

This beautiful variety is more varied in colour than the popular Shirley Poppy, which it somewhat resembles. There are both double and single varieties; for hardy spring flowers few things equal them .. 1s 6d per doz.; 7s 6d per 100

ORNITHOGALUM ARABICUM

Star of Bethlehem. A strong-growing showy plant, with large bunches of flowers produced on a tall stem; colour white with dark centre; very hardy .. 3d each; 2s doz.

SCILLA

Wood Hyacinth. A beautiful little spring blooming bulb; flowers principally blue shades, produced on short stem; dwarf and exquisitely beautiful .. 3d each; 2s doz.

THE TRUE ENGLISH SNOWDROP

== MISCELLANEOUS BULBS ==

ANOMATHECA CRUENTA
(Red Freesia)

A very pretty Cape Bulb, in growth very much like the Freesia, but the colour is a rich carmine-crimson. They do well in open borders, also make pretty pot plants. 3d each; 2s 6d doz.

AGAPANTHUS Blue .. 9d each.
 White .. 9d each.

Crown of beautiful flowers on stem 3 feet long.

BEGONIA TUBERS

A fine mixture, or in separate colours. Single varieties, 1s each; 10s doz. Double varieties, 1s 6d each; 15s doz.
Can be supplied during May, June, July, August and September.

CALLA

Æthiopica (ARUM LILY). The Old Nile Lily .. 1s each
Maculata Alba. Spotted leaves, white flowers; pretty pot plant .. 1s each

CHLIDANTHUS FRAGRANS

A very pretty bulbous plant, the leaves appearing after the flowers, which are a bright yellow and scented. 6d each; 5s doz.

CRINUM 1s 3d each

A beautiful plant; its habit resembles the Agapanthus. The flowers are produced in bunches on tall stems.
Capense. White, with pink stripe. Moorei. Beautiful pink.

CYCLAMEN

Strong Bulbs, in splendid mixture. Can be supplied during March, April and May. 1s 6d each; 15s doz.

GLOXINIA TUBERS

A grand assortment of colours. Can be supplied during May, June, July and August. 1s each; 10s per doz.

MONTBRETIAS

Extremely hardy free growing plants, which flower profusely when thoroughly established. The flower stems are from 2½ to 3 feet in height and gracefully arched, and the colours are charming—bright orange, golden yellow, orange and bright vermillion, and rose.

Named Varieties, 3 kinds .. 3d each; 3s doz.
In Fine Mixture .. 3d each; 2s 6d doz.

FANCRATIUM

Beautiful pure white flowers, exceedingly fragrant; water freely during the growing season. 1s each.

POLYGONATUM

(Solomon's Seal)

A graceful plant, having arching stems of pendant white flowers, partly hidden beneath its foliage. 6d ea.

The Greatest Satisfaction!

"I have been dealing with your firm for a number of years, and have always had the greatest satisfaction. I may also state that the Bulbs, etc., which I purchased from you last season have done well, more especially the Hyacinths, which were a picture. With best wishes for a prosperous season."

JACOB FEILEN, Lismore.—2-5-06.

Farm Calendar for February

Sow Anderson's Imperial Swede and other Field

Turnips, Carrot (when September sowing has failed), Field Cabbage (late sowing), Rape (for autumn sheep feed), Buckwheat, Cape and Skinless Barley for green fodder, Maize for green crop, Parsnip as field crop, and Thousand Headed Kale (late sowing).

Farm Calendar for March

Sow Dwarf Rape for sheep feed, Broad-leaved Lucerne, Rye

Grass, Prairie Grass, and Cocksfoot Grass and Clovers for pasture; Burnet Grass and Sainfoin for green fodder; Buckwheat (last month to sow); Black or Golden Tares can be sown alone or mixed with Oats, Barley or Rye; sow Oats, Cape and Skinless Barley, Rye, and Scarlet Clover separately for green crop; Carrot (if September sowing has failed).

Anderson's Grass Seeds for Permanent Pasture

THESE Grass Seeds are in large demand, and are made up with so much care and with such a long experience that the most satisfactory results are obtained. MIXTURES, from 12s 6d to 22s per acre.

Anderson's Famous Re-cleaned Colonial Grown Lucerne

THIS is our great specialty. Magnificent stretches of Lucerne paddocks are to be found all over the States, raised from our famous stocks of Seed. In many districts autumn is the best season to sow. Samples and quotations on application.

Anderson's Colonial-Grown Prime Sheep Burnet

THIS is one of the very finest sheep feeds grown, and is now being extensively sown on the country which is either not suitable for, or is Lucerne sick. It is only during the last few years that it has been in any way appreciated as a sheep feed that it is deserving of from its excellent feeding properties. Sow in the autumn. For full details, price, etc., see Large Catalogue. Samples and prices on application.

Anderson's Genuine Imported Dwarf Essex Sowing Rape

THIS is the true broad-leaved variety, and growers should be careful in selecting stocks, as much disappointment may result. The very finest results have been obtained from Seed we supplied last season. Sow now, 6 lbs. per acre, broadcast. Price, 4d per lb.; 30/- per cwt. Special quotation for large lots.

Anderson's Farm Seeds for all Crops

Our Large Catalogue of Vegetable and Flower Seeds ready in March

— ANDERSON & CO., 399 George Street, Sydney —

CULINARY PLANTS & ROOTS

SEEDLINGS, &c.

GABBAGE, Sugarloaf	1s per 100
Brunswick	1s per 100
Drumhead	1s per 100
CAULIFLOWER, Early London ..	1s 6d per 100
Autumn Giant ..	1s 6d per 100
LETTUCE, Drumhead	1s per 100
KOHL RABI, Delicious Vegetable ..	1s 6d per 100
CELERY PLANTS, Red and White ..	2s per 100
SAVOY, Drumhead	1s 6d per 100
BRUSSELS SPROUTS	1s 6d per 100
BROCCOLI	1s 6d per 100
HERBS (Sage, Thyme, Mint, Marjoram) ..	3s per doz.

Postage, 9d per 100; special price quoted for large quantities.

CHIVES For Salads, etc. 6d per clump.

ESCHALOTS

6d per lb.; post free, 1s 3d. Special price for large lots.

Are used like Spring Onions in Salad, and sometimes for flavouring. The cloves must be divided and planted separately. Fresh manure should be avoided.

POTATO ONIONS

4d per lb.; post free, 1s. Special price for large lots.

Plant during autumn; they yield good crops when Onions cannot be raised from seed, and come in at a time when Onions are scarce; the bulbs are produced like Potatoes.

TREE or TOP ONION

9d per lb.; post free, 1s 6d. Special price for large lots.

Plant the sets or tops during the autumn and winter months; these will produce large bulbs at the base the first season. The large bulbs when planted produce the tops, which make excellent salad flavouring and pickle well.

SEEDLINGS FOR AUTUMN PLANTING

AQUILEGIAS, Common Double
ANNUAL CHRYSANTHEMUMS
CORNFLOWERS
CALLIOPSIS, Drummondi
„ Bicolour
„ Mixed

Our General Illustrated Catalogue of Plants, Seeds, &c., will be issued in March. Send for a copy.

HORTICULTURAL SUNDRIES

Anderson's "EXCELLENTA"—Superior Garden Fertilizer

For vegetables and flowers this manure is a fertiliser of a very high class, containing potash, nitrogen, and phosphoric acid in the proportions best suited to become the food of plants. It is ground to a fine powder, and is free from any smell; can be used either liquid or dry.

This fertiliser is sent out in a highly concentrated form; the ingredients are the very best. It should be applied sparingly at first, until its strength is properly gauged.

Directions for use with each package.

"LAWN KING"

Ball-Bearing Lawn Mower

Finished in lustrous and lasting bicycle enamel, the body of the mower a rich olive; the wheels in orange, the under side of each cylinder knife also in orange; handsomely striped. The most attractive colour scheme ever used on a lawn mower.

The advantages of ball bearings are well understood.

There is the same reason for their use on a lawn mower that there is on a bicycle, to make it run easy.

On its accurate ball bearings the cylinder of this Mower revolves at high speed with the free movement of a bicycle wheel.

While it runs so much easier and with less noise than other mowers, it cuts faster, cleaner, more evenly, does not push the grass before it, but cuts every spear, leaving the surface of the lawn perfectly smooth.

Every part is made on the interchangeable plan.

All oil holes and adjusting screws are easily reached from the upper side. The roller adjustment is simple.

The knife steel is the finest ever used on lawn mowers.

Can be adjusted to cut as close as ⅓ of an inch.

Dust proof, hardened and ground bearings.

Patent ball retainers. 9½ inch wheels.

The Orchid of the Garden

The beautiful Iris and all its numerous family have been most aptly described as the Orchid of the Garden, and no lover of flowers can fail to appreciate to the full these lovely creations. They are perfectly charming in their very striking contrasts of colour, so unique in shape, so stately in appearance, and withal so easily cultivated, that they form one of the most interesting Bulbous Flowering Plants in the Floral kingdom.

IRIS LORTETI

Iris Lorteti

Is one of the finest examples of the most interesting family of IRIS grown. It is a native of Palestine. The flowers are very large, the standards nearly white, just veined here and there delicate violet; the falls light cream, heavily spotted crimson, and purple. A most gorgeous flower.

Price - 3/6

== STOCK LIMITED ==
